

I listen to K-Love Radio every day in my office. I believe it is a ministry that God wants to continue as effectively as possible. However, if you down-grade this to LPFM, I won't be able to receive it in my office, in my car, or at home. I know that this station has a calming effect on everyone I work with, Christian and Non-Christian. Please, please provide me and all who listen to this program the same courtesy as you do to all who listen to pop, rock, country, sports and news radio programming. Thank you.
